About me: I am a **graphic designer, illustrator and dark artist**. I was born in Poland in 1980. In 1988 my family and I immigrated to Greece where I got the opportunity to take part in drawing and poetry competitions, winning various awards.

Since 1996 till 2000 I have been studying **Pencil, Color and Charcoal Drawing**, preparing myself for the **Athens School of Fine Arts**, or at least that's what I thought till I came across the **Graphic Design Studies** which combines my passion for **drawing, photography and new technologies**.

I **graduated first in grades classification and received a scholarship**, in 2007, from the Technological Educational Institute (TEI) Of Athens - Faculty of Graphic Arts & Design, the only school of Applied Arts of Higher Education in Greece.

WORK INFORMATION

Work history: Volunteer work in the **summers 2001-2002** helping **Greenpeace** organization to find new supporters.

I started full time job at "Striligas - Digital Printing" (www.striligas.gr) from **06/2004 to 09/2005** as a junior art / Printer operator specialized in digital printing methods. Due to my continuous and tireless effort to reach the maximum success of the business, I was appointed print manager and later on, store manager in a different store from where I started.

In September 2007 I started working in the advertisement company "Beautiful People - Nikolaidou Eleni" (www.beautifulpeople.com.gr). There I was working full time as a graphic designer - illustrator, mostly specializing in **fashion and food advertising**. On top of that, I organized various campaigns and by having the innate talent of illustration, I was able to provide personal consultation to the photographer presenting the whole plan. As a result I created original stories through each and every photo. In 09/2009 I become the **Art Director** of the firm since March 2010 when I quit and I continue working with them as a freelancer.

From February 2008, I started working as a freelancer with **Glafki Publications** (www.glafki.gr) making book layouts, illustrations and graphics.

In December 2009, I opened my own **Graphic Art office** in Nea Peramos - Athens.

The **same period** I also collaborated with "Go On Advertising / Promotion Company" in Megara as a freelancer graphic designer, where i took the great responsibility of making an advertising campaign for the mayoral candidate.

In December 2010 I collaborated with **Redpenguin Advancing Technologies** as a Graphic / Web Designer / Consultant. (www.redpenguin.gr)

In March 2010, I started a full time job at "Typografiki.gr" as a **Art Director and advertising consultant** till August 2014 when I quit. Among other duties, I undertook to create the advertising and graphic design sector for up to 4 years. (www.typografiki.gr)

In September 2014, I took part in a **new partnership business** named "Just Design" which is a small start-up firm located in Toronto, Ontario. It offer Internet, Web-related and Graphic Design services mostly to small businesses in Ontario area but also world wide. The services it offer include website development and design, hosting, maintenance, marketing, analysis, advertising, company profile and mobile/tablet applications.

At the same time I started working as a **Lead graphic - web designer and manager of the marketing - social media department**, at Albumake and I work there till now. Currently the firm expanded and we run 3 brands: **Albumake.com** (Digital Handmade albums), **Colordrop.gr** (Advanced Printing Solutions) and **ManosDaskalakis.com** (Seminars, social media and branding). Being the right hand man for Manos Daskalakis, him and I managed to rise the company in every way possible and finally. We managed to develop the company to the maximum, highlighting all four aspects with innovative ideas for albums and product promotion. studying some corresponding companies as well as marketing and bussiness seminars focusing mainly on Grant Cardone and thus we became the number one company in Greece.

Argus Dorian: From **summer of 2018** I also run my own artistic business and **dream** under the nickname **Argus Dorian** where I work with models all over the world providing professional photo-manipulation services as a dark cyberpunk artist.

I published my first eBook: "Decayed Nation - A bloody story of survival" a dark post apocalyptic novel and working on the second one and also a **Video Game** and **Movie scenario** based on my book and the story I develop on my Instagram profile.

All my work can be found on my **Instagram as @argusdorian** and **www.decaydead.com**

January 2008:

By "**Death Lovers News**", my **illustration "Decayed Voice"**

"It's an amazing work not just the fact that it is a digital art drawing, but the quality in the details, he took care of every possible flaw and make it look outstanding with such an amazing dark style..." part of comment by Levi R. Rua D.

And my **ink draw "the Head"**

"Alright while being a traditional artist i know doing something with ink ain't that of an easy piece of cake and this definitely brings my attention...When i see some ink work or traditional art, the main thing i look for is creativity in the realization of the art and this one might come out of something like that..." part of comment by Ninaste.
